

4-CH Bluetooth wall amplifier with Android

Background Music Host

Bluetooth and WIFI connection

Description:

This 4-channel small bluetooth multi-home audio system equipped with micro USB/TF can power 4 pieces of speakers in your home or small commercial area. It uses a high-efficiency class-D amplifier for a maximum output of 4*20 watts, low-impedance speakers. The cool display shows relevant track music info. Plus, you can control everything – seek, change tracks, and adjust the volume – using the included wireless infrared remote controller.

The APPs can be installed by user depending on needs.

Features:

- ▶ 7 inch touch screen for easy access and control of the system
- ▶ Multi-protocol smart home docking including 485, WIFI, etc.
- ▶ Can install Spotify, Pandora music APPs to play real time music via WiFi
- ▶ Support for external Bluetooth devices such as mobile phones to achieve audio playback, two-way control of playing external Bluetooth device music.
- ▶ Support wireless microphone and family karaoke (optional function);
- ▶ Support audio input and output function; support subwoofer access;
- ▶ Support TF card and OTG 2.0USB interface, USB can be connected to the hard disk;
- ▶ Suitable for homes, commercial areas, kid's room, etc.
- ▶ With RS 485 control
